Investment Amount (USD)	\$ 0.55 million
Project Cost (USD)	\$ 0.55 million

Project Description

According to the bank, the objective of this Technical Cooperation (TC) is to support LAC governments by strengthening their institutional capacity to implement efficient tax measures in digital economy. This TC is designed to support tax authorities in: (i) identifying challenges in digital tax administration of LAC and laying the groundwork for modernizing tax authorities; and ii) seeking best practices to establish an integrated digital platform and data security technologies in LAC down the line.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
