PPP Models to Expand Renewable Energy, Electricity Access and Energy Efficiency

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Closed
Bank Risk Rating	C
Voting Date	2019-09-12
Borrower	IDB borrowing countries
Sectors	Energy, Infrastructure, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.62 million
Project Cost (USD)	$ 0.62 million

PPP Models to Expand Renewable Energy, Electricity Access and Energy Efficiency

Project Description

The general objective of this TC is to assess the use of PPPs to finance electricity infrastructure that provide electricity coverage in a secure, reliable and sustainable way. In that sense, this TC will analyze: (i) the regulatory and institutional environment for PPPs in the target countries, their fiscal arrangements and risk management as well as challenges for the implementation of PPPs; and (ii) identify sectors/subsector where PPPs could be implemented. Based on the opportunities identified, and considering the experience with PPP projects in the electricity sector in the LAC region, the TC will review and provide a critical analysis of cases of PPP in the LAC region, identifying lessons learned from the design and implementation of PPP projects in the electricity sector, mainly in renewable energy, electricity access and energy efficiency (e.g., public building, street lighting).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
