Project Cost (USD)	\$ 0.50 million

Project Description

According to the bank, this technical cooperation aims to support the design and implementation of the Patrimonial Cities Program (PCP) through the development of methodological and operational instruments. The PCP is a multisectoral initiative of the Bank aimed at strengthening the capacities of the cities of Latin America and the Caribbean (LAC) to promote conservation and sustainable revitalization of urban heritage, as well as catalyst for economic, environmental and social progress, and as a means to strengthen cultural identity and equitable urban development in the region.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
