Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	C
Voting Date	2018-10-02
Borrower	Regional
Sectors	Education and Health
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.20 million
Project Cost (USD)	$ 0.20 million

Project Description

According to the bank, this Technical Cooperation seeks to generate knowledge about the current demanded skills by the market, the allocation of time in specific tasks and how skills evolve in time, to gain data on which skills will prevail in the future in the context of changes in demand and supply as an effect of the adoption of new disruptive technologies and other factors. The additionality of the TC is based on: 1) obtaining knowledge related to the perceptions of current necessary work skills; 2) gathering information regarding the time associated to task completion to capture detailed data on the duration and movements required to accomplish a specific task; and 3) the development of knowledge related to the perceptions of the skills necessary in future social employment. This TC is aligned with the Social Protection and Poverty Sector Framework, since it contributes to generate evidence that promotes the necessary conditions for the creation of new productive social jobs. It is linked to the Labor Sector Framework Document, due to the need to have quality jobs that face the multiple future challenges (including the onset of new disruptive technologies), and the Education and Early Childhood Development Sector Framework, due to the importance given to the improvement of human capital and new skills.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
