Project Description

According to the bank, the objective of this technical cooperation (TC) is to support countries to improve the transparency and efficiency of public investment systems by strengthening information management. This TC will support the design and implementation of scalable data georeferencing platforms, and disseminate their use and potential impact. With this, we will seek to open the initiative in a flexible way to new countries, who will be able to join this TC through Letter of Request or Non-Objection, and will be admitted based on their order of arrival (rolling basis).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
