Project Description

According to the bank, the objective of this technical cooperation is to support the different government agencies responsible for the policy, management and regulation of gas in their plans and activities to reduce emissions and achieve efficiency improvements through their use, in a group of countries in Latin America and the Caribbean (LAC). There are three fundamental reasons to promote the reduction of emissions and the improvement of efficiency in the use of gas: (i) reduce the waste of hydrocarbon resources; (ii) achieve environmental improvements and compliance with climate commitments; (iii) achieve a financial return and / or monetary savings in a sustainable manner.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
