Skills for the Future

## Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	C
Voting Date	2018-12-12
Borrower	Regional
Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 2.00 million
Project Cost (USD)	\$ 8.00 million

---

## Project Description

The project objective is to narrow the gap between vulnerable youth and the future job market. To do this, digital tools for blended learning or virtual programs on soft and digital skills, guidance, and job placement would be developed to more quickly scale up the Forge model. This would produce a better, more up-to-date product for the beneficiaries that would meet their needs and have been designed for new jobs or for jobs that have been transformed by technology. It could be adapted to new trends, with widespread, efficient implementation in new areas.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
