IADB-RG-T3393

### **Project Description**

According to IADB website, the technical cooperation aims to (i) provide just-on-time technical assistance on demand to governments in the region, in particular those administrations starting or about to start; (ii) promote learning and cooperation between high level practitioners working on this area; and (iii) promote innovative solutions in center of government functions, in particular cross-agency and intergovernmental coordination.

#### **ACCOUNTABILITY MECHANISM OF IADB**

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
