Status	Active
Bank Risk Rating	C
Voting Date	2019-07-16
Borrower	Regional
Sectors	Law and Government, Technical Cooperation, Transport
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.30 million
Project Cost (USD)	$ 0.30 million

Project Description

The purpose of this Technical Cooperation (TC) is to support governments, specifically Costa Rica and Paraguay, both in the management of works contracts, analyzing their main characteristics, evolution and associated risks, and in the execution of projects, providing advice to governments of the region based on other projects financed by the Bank. The specific objectives of this TC are: (i) to support the executing agencies with tools that facilitate the identification and mitigation of risks; (ii) training national and local entities and institutions to improve the execution of projects and the proper management of work contracts; and (iii) support local governments in the adoption and implementation of innovative technologies during the execution phase of projects.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
