Status	Approved
Bank Risk Rating	U
Voting Date	2019-06-10
Borrower	Regional
Sectors	Infrastructure, Technical Cooperation
Investment Type(s)	Grant
Project Cost (USD)	$ 2.00 million

Project Description

The objective of these Advisory Services (AS) is to support private project developers to identify and implement resiliency infrastructure measures in their investments. The specific objectives are to: (i) develop corporate capacities in project infrastructure sponsors to consider climate change adaptation in their investments; (ii) define project studies to be included in the conception, construction and/or operation of infrastructure; and (iii) disseminate results and knowledge to generate awareness among project sponsors for the replicability of resilient infrastructure.

Investment Description

- Inter-American Development Bank (IADB)

Sustainable Energy and Climate Change

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
