Status	Approved
Bank Risk Rating	C
Voting Date	2019-12-18
Sectors	Technical Cooperation, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	\$ 8.55 million

Project Description

According to the Bank's website, this project finances technical cooperation to implement small-scale solutions for wastewater management in the Wider Caribbean Region. The project will include watershed and freshwater basin protection, water conservation and efficiency, and water reuse, and will prioritise technologies for treating wastewater in rural and peri-urban areas that are replicable.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
