<b>Sectors</b>	Technical Cooperation, Transport
<b>Investment Type(s)</b>	Grant
<b>Investment Amount (USD)</b>	\$ 0.30 million
<b>Project Cost (USD)</b>	\$ 0.30 million

## Project Description

The objective of this Technical Cooperation (TC) is to support and strengthen regulators from various countries in Latin America and the Caribbean (LAC), defining guidelines for the design and implementation of regulation in four key sectors of technological advancement and civil security: autonomous vehicles, TNCs, micro-mobility and drones. The beneficiary countries of this TC will be selected based on the following criteria: (i) identification of the problems and challenges of the transport sector and relevance of the studies at the national and local levels; (ii) availability of local authorities to support the analyzes and provide required information; (iii) institutional availability to implement pilots with innovative technologies that improve the productivity of the sector. Each component of this TC will benefit a country or group of countries in which there is special interest in promoting some of the technologies.

## Investment Description

- Inter-American Development Bank (IADB)

Ordinary Capital

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
