Bioeconomy: Exploring the Potential of Emerging Biotechnologies for
Driving Sustainable Economic Gro

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2019-06-24
Borrower	Regional
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.30 million
Project Cost (USD)	\$ 0.30 million

Project Description

The objectives of this technical cooperation are to (a) understand the opportunities and implications of emerging biotechnologies, (b) assess the potential of Latin America and the Caribbean for the bioeconomy, and (c) design new policy instruments and regulations to help stimulate the growth of the bioeconomy towards its potential. The results of this project will help (i) guide the dialogue of the Bank with institutions for the development of the bioeconomy, and (ii) contribute to design future development programs with governments.

Investment Description

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
