Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.60 million
Project Cost (USD)	\$ 0.60 million

Project Description

The goal of the TC is to strengthen the capacity and human talent of LAC public officials regarding international best practices on digital government. Although countries have a growing commitment to digital transformation, it is clear that one of the main obstacles is the shortage of technical talent among public officials, which makes it difficult to achieve a holistic digital transformation. In addition, support for the GEALC network as a horizontal cooperation agency between LAC countries needs to be continued.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
