Project Cost (USD)	\$ 0.60 million

IADB-RG-T3445

Fostering Public Sector Capacity and Human Talent on Digital Government in LAC

Project Description

The goal of the TC is to strengthen the capacity and human talent of LAC public officials regarding international best practices on digital government. Although countries have a growing commitment to digital transformation, it is clear that one of the main obstacles is the shortage of technical talent among public officials, which makes it difficult to achieve a holistic digital transformation. In addition, support for the GEALC network as a horizontal cooperation agency between LAC countries needs to be continued.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
