Project Description

The purpose of this operation is to increase the value that ConnectAmericas.com (CA) offers its users by supporting the technology development of CA, the dissemination of CA, and the creation of contents for SMEs to be distributed through CA. The scope of the project is regional by nature and all the IDB member countries stand to be beneficiaries of this operation on an equal footing. As of today, CA has over 260,000 registered users from over 150 countries, and the features of the platform allows all of them to benefit equally. The objectives and activities of the operation are aligned with the Bank's Strategy for Global and Regional Integration (GN-2565-4) as it will facilitate regional commerce and promote the internationalization of SMEs, thereby increasing the demand for trade-related infrastructure (e.g. transportation and customs).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
