Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.40 million
Project Cost (USD)	$ 0.40 million

Project Description

Support governments of Latin America and the Caribbean (LAC) to conceive and implement strategies for the digital transformation of their public finances. Through the development of business models, methodologies, standards, solutions based on digital technologies and strategies to strengthen human talent and organizational culture, the TC seeks to create knowledge that promotes the development of comprehensive institutional capacities in the public treasuries of the region to digitize key areas such as tax administration and public expenditure management. It is expected that with the strengthening of digital capacities promoted by this TC, the beneficiaries will be in a better position to: (i) increase tax collection and limit distortions in tax policy that affect productivity; (ii) improve the efficiency and quality of spending; and (iii) improve fiscal transparency.

Investment Description

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
