Country and Sector Low-Carbon and Resilient Development Analyses

### Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	C
Voting Date	2020-07-23
Borrower	Regional
Sectors	Climate and Environment, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.37 million

### Project Description

The objective of the Technical Cooperation (TC) activity is to provide: 1. Systematic analyses of country situations regarding low-carbon and resilient development. 2. Monographies on the main solutions for decarbonization of selected sectors at the global, regional (Latin America and the Caribbean) levels. 3. These analyses, monographies will facilitate the operationalization by the IDB Group, of the approach developed by the Multilateral Development Banks (MDB) for alignment with the Paris Agreement.

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
