## Project Description

The objective of this TC is to support the borrowing member countries of the Bank in their efforts to strengthen the institutions of Internal Control (IC) government, in order to help public entities have a framework of integrity and risk prevention in the execution of its public expenditure management processes to improve its effectiveness and efficiency. This TC will seek to contribute to this strengthening by identifying the best international practices, assessing their adaptability to the conditions of the region and proposing adjustment measures to the organization and operation of Internal Control (CI) institutions.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
