Investment Amount (USD)	$ 0.50 million
Project Cost (USD)	$ 0.50 million

Project Description

To strengthen the capacity of the mining and energy sector to promote gender equality through the generation of concrete actions and public and private policies aimed at increasing female participation through strategic alliances. This project will achieve its objectives by: (i) promoting best practices through gender gap assessments, training and policy recommendations and action plans for its implementation in sector institutions; (ii) strengthen the management and leadership capacity of women in mid-level management, through an intervention program that highlights women's leadership in the sector, (iii) coordinate and generate public-private strategic alliances for the joint promotion of gender equality , and (iv) systematize and disseminate the intervention model for its expansion and replicability in other countries of the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
