Project Description

According to the Bank's website, this project finances technical cooperation to improve the integration of environmental and social analysis as a core component of (i) private sector operations development and execution and (ii) standard setting at the market and country level.

This technical cooperation will address environmental and social risk management shortcoming by leading the implementation of key interventions with private sector actors that provide a demonstration effect. Those experiences will be used to develop environmental and social standards, knowledge products and build capacity at the sector and country level.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
