## Project Description

According to IADB website, the Technical Cooperation aims to improve WLB's access to finance by enhancing the capacity of NDBs to better serve this segment, both directly and through programs implemented via eligible FI intermediaries. This objective would be achieved via: (i) strengthening institutional capacity at NDBs to incorporate gender aspects in financing programs and to collect, monitor and analyze WLBs data; (ii) support the technical design of WLBs Programs, including the support to relevant related pilots in at least two countries; and (iii) actively disseminating the knowledge and recommendations generated.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
