Enhancing Efficiency Through Port Community Systems and Single Windows for Trade

Enhancing Efficiency Through Port Community Systems and Single Windows for Trade

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2019-12-12
Borrower	Regional
Sectors	Industry and Trade, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.50 million

Project Description

According to the Bank's website, this project finances support for the implementation of port community systems (PCS) solutions in select Caribbean air- and sea-ports. This technical cooperation will identify opportunities for the harmonisation of documents and the sharing of data between countries. To this end, the cooperation will support the design, the community-building process, and the potential interoperability between national and regional ports.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
