Knowledge Exchange and Research on Korean Experience with Infrastructure Services for Latin America

Project Description

The objective of this TC is to contribute to the body of policy-oriented knowledge that aims to improve the quality of infrastructure and infrastructures services in LAC and thus, the development challenges which are positively correlated with infrastructure. The specific objectives of this TC are to identify and disseminate knowledge that is relevant to LAC on the Korean experience with i) the policy frameworks used to manage infrastructure projects, particularly in transportation, water and sanitation, and electricity; ii) the use of technology to measure the efficiency of infrastructure projects.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
