Informing the Design of Long-Term Decarbonization Strategies

Early Warning System

Informing the Design of Long-Term Decarbonization Strategies

IADB-RG-T3575

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Regional
Sectors	Climate and Environment, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 1.00 million
Project Cost (USD)	$ 1.00 million

Project Description

The objective of the TC is to continue building the scientific evidence basis to inform the design of long-term strategies in LAC. The project is a second iteration of the Deep Decarbonization Pathways LAC project (DDPLAC). DDPLAC aims at building the capacity of local academia and think tanks to use numerical models to inform the design of long-term emission reduction strategies in LAC.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
