IADB-RG-T3636

### Promoting Innovation to Accelerate the Circular Economy in LAC

#### **Project Description**

The general objective of this TC is to enhance the capacity of LAC policymakers to design, implement, monitor and evaluate policies aimed at promoting the circular economy in the region. This will be pursed through three specific objectives: (i) the generation of statistical information and analytical studies on the demand and offer of skills and capacities to promote the circular economy in LAC; (ii) the strengthening of LAC institutional capacity in the circular economy area, through activities of knowledge generation and capacity building; (iii) the development of specific circular economy strategies in a few selected LAC countries

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
