Sustainable Finance in LAC: Supporting the Design of National Roadmaps and Promote the Greening of the Financial System in LAC

Sustainable Finance in LAC: Supporting the Design of National Roadmaps and Promote the Greening of the Financial System in LAC

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	C
Borrower	Regional
Sectors	Climate and Environment, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.40 million
Project Cost (USD)	$ 0.40 million

Project Description

The objective of this technical assistance is to support financial regulators, supervisors and public financial institutions in the preparation of National Roadmaps of sustainable finance, as well as in the promotion of public-private dialogues for the greening of financial systems in Latin America and the Caribbean. The National Roadmaps aim to encourage strategies to prioritize and implement a series of clear pathways and actions (including financial regulatory instruments and supervisory measures) to incorporate and disclose environmental and climate risks as well as foster the development of financial products that can support the implementation of NDCs and the transition to low carbon economies. Based on the experience and lessons learnt from national roadmaps a regional space for exchange of experiences will be promoted to facilitate a regional dialogue and coordination towards the creation of a coherent sustainable finance market for the region.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
