IADB-RG-T3649

Strenghtening Skills and technical knowledge for workers in LAC towards a transition to a low

### **Project Description**

The general objective of this technical cooperation (TC) is to expand the knowledge on the climate change (CC) and environmental sustainability (ES) associated with labor markets and social security initiatives and projects. The TC will analyze: (i) occupations and skills needed in areas of climate change mitigation and adaptation; y (ii) opportunities to promote investment alternatives in the social security systems, which promote investments in environmental themes.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
