Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Regional
Sectors	Finance
Investment Amount (USD)	$ 0.60 million

Project Description

This Technical Cooperation intends to continue to provide support to LAC countries to access resources from international climate financing sources, by strengthening their capacities to: (i) design and prioritize a strategic pipeline of projects for each country, according to their national plans and needs; and (ii) prepare project proposals that meet the investment criteria of each fund. By doing this, the operation ultimately pursues the goal of enabling and catalyzing investments towards net zero, climate resilient development, as well as to conserve essential natural resources, which provide key local and global services.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
