## Project Description

The proposed TC's general objective is to contribute to strengthening current efforts of Latin American and the Caribbean (LAC) member countries to effectively implement climate resilience actions to achieve long-term adaptation to climate change. TC specific objectives are: i) support countries on developing long-term plans for adaptation, in line with their National Determined Contributions (NDCs); ii) foster the generation and practical use of knowledge on disaster and climate change risk as a way to enhance existing disaster and climate change mainstreaming processes (both within IDB and at country level); and iii) support member countries in the development of pre- investment studies to identify adaptation measures that could be further financed through loans and/or international climate funds.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
