Project Description

The objective of this technical cooperation is to continue promoting innovation in public management as a tool for strengthening public institutions and the provision of citizen services in Latin America and the Caribbean (LAC) through the recognition and dissemination of good practices by sub-national governments. To this end, the TC will support new editions of the contest *Gobernarte: el arte del buen gobierno* (Gobernarte), the dissemination of the winning initiatives and the exchange of knowledge among governments. The specific objectives are: (i) to identify and recognize innovations in the public sector, particularly those using new technologies; (ii) to increase the visibility of innovative advances in public management at the sub-national level of government; and (iii) to promote South-South cooperation and knowledge exchange among sub-national governments.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
