Better Data, Smarter Technologies and more Efficient Processes: A Roadmap for Greater Fiscal Transparency to Fight Corruption

Project Description

According to the bank website, "The main objective of this technical cooperation (TC) program is to support Latin America and the Caribbean countries in strengthening their fiscal transparency and efficiency, by harnessing the use of data, expanding the body of knowledge about the topic and by designing and implementing action plans aimed at creating better rules, stronger institutions, and efficient processes, to tackle corruption and the mismanagement of public funds."

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
