IADB-RG-T3670

Principles of Integrity in Infrastructure

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Regional
Sectors	Law and Government
Investment Amount (USD)	$ 0.10 million

Project Description

The objective of technical cooperation is to support the elaboration of a framework of principles of transparency and integrity in infrastructure of the GBID, nourished by a comparative analysis of the different international initiatives in force on the matter. The framework of principles would involve the entire infrastructure cycle, from selection to completion of the work and execution of the contract, and would take into account the multiple actors and interests that interact in these processes.

Investment Description

- Inter-American Development Bank (IADB)

The "Investment Type" was not available at the moment of the snapshot.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
