Project Description

The objective of this TC is to support metropolitan institutions in developing coordination mechanisms and processes to address challenges related to equity in urban investments and efficiency in emergency management among multiple jurisdictions in a metropolitan area. Metropolitan institutions will be equipped to 1) identify and address equity gaps in urban service delivery and housing among metropolitan jurisdictions, and 2) generate plans and procedures for coordinating effective responses to emergencies (including public health and natural disasters) among stakeholders. As a regional TC, it will also support peer-learning exchanges among participating metropolitan institutions and knowledge and dissemination activities.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
