Project Description

The general objective of this TC is to enhance the capacity of LAC policymakers to design, implement, monitor, and evaluate policies aimed at supporting the LAC cultural and creative industries to recover from the COVID-19 pandemic. This will be pursued through three specific objectives: (i) the generation of statistical information and analytical studies on the economic impact that the COVID-19 pandemic brought to LAC creative industries, the key obstacles that they are facing, and the new business models that they could develop or adopt to generate revenues in this new scenario; (ii) the strengthening of the LAC institutional capacity in designing and implementing economic recovery policies for the creative economy, through activities of knowledge generation and capacity building; and (iii) the development of creative economic recovery strategies in a few selected LAC countries.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
