Project Description

According to IADB website, the Technical Cooperation (TC) aims to support the institutional strengthening of the IDB borrowing countries to conceptualize, operationalize, and execute public policy measures with the objective of supporting economic productivity and employment due to the crisis generated by the COVID-19. The specific objectives will be to support them in: (i) structuring measures to mitigate liquidity and access to credit issues that affects MSMEs during economic crisis; (ii) generating operational knowledge to accompany the implementation of such measures; and (iii) obtaining technical support and training to key personnel for the successful execution of the proposed measures.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
