Project Description

According to IADB website, the purpose of this technical cooperation is to strengthen overall public health emergency response systems and preparedness in LAC countries to enable better management of the current and future outbreaks using digital tools. In doing so, this TC will fund knowledge sharing from South Korea's experience in strengthening its public health emergency response system. Furthermore, in order to develop a system that is suitable for the region, this project will fund hiring of a top entity from the region with the necessary expertise to vet potential technologies in their use and applicability for the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
