Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.80 million
Project Cost (USD)	$ 0.80 million

Strategies to maximize growth in the post-Covid productive transition of the Andean region

Project Description

This TC proposes a strategy to manage the productive transition that, derived from the consequences that the recent Covid-19 pandemic will have on the world economy, the region will face. Specifically, the TC proposes: (1) Estimate the impacts derived from these transitions, (2) make policy recommendations to adapt institutional frameworks to these new realities, and (3) propose productive strategies to take advantage of productive chains related to natural resources, as well as to take advantages of the new opportunities presented by these transitions.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
