Project Description

This TC will collect data on Waste of Electrical and Electronic Equipment (WEEE) generation and composition, identification of stakeholder list, identification of existing pathways of disposal and market conditions for the recovery of recyclable materials. Based on the conducted fieldwork, updated assessment reports for Trinidad and Tobago and Suriname and an assessment for Guyana will be developed. A proposal for WEEE management for the three countries will be developed, aiming to design a sub-regional management approach if possible. Training modules for the staff that will run the WEEE sub-regional management solution will be developed. A business plan for the proposed management solution will also be developed.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
