Project Description

According to IADB website, the COVID-19 crisis has made painfully clear that, while Caribbean countries have made strides in e-government, the road ahead is still long, and there is a need to considerably accelerate the pace of digitalization, particularly of services. The objective of this TC is to conduct a series of diagnostics and roadmaps of egovernment digital capacity in 3 Caribbean countries, particularly in light of lessons learned from the health crisis, with the specific aim of identifying strategies and solutions to strategically accelerate the pace of digitization of the public sector.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
