Project Description

According to IADB website, the objective of this RPG is to develop a prototype system for the protection of the educational trajectories of the most vulnerable populations in Mesoamerica, adapted to the new challenges derived from COVID-19. The prototype will have two complementary elements: (i) the prevention of dropping out of school by monitoring predictors of school dropout and the implementation of immediate support measures for secondary school; and (ii) the generation of a flexible and/or accelerated secondary education service that is adapted to the realities, schedules and individual situations of young people who abandoned the regular educational system.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
