Circular Lithium: Sustainable Battery Value Chain Solutions

Early Warning System

Circular Lithium: Sustainable Battery Value Chain Solutions

IADB-RG-T3787

Quick Facts

Countries	Bolivia, Colombia, Mexico, Peru
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Voting Date	2021-10-29
Borrower	Regional
Sectors	Energy, Industry and Trade, Mining
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 1.00 million
Project Cost (USD)	$ 1.00 million

Project Description

This project aims to accelerate the shift towards circular economies in the region and create awareness of the untapped business opportunities of circular systems. Its objective is to identify and assess sustainable business models for recycling used Li-ion batteries, both by reusing its material components or by finding a second life for the battery. Efforts will be focused in Bolivia, Colombia, Mexico, and Peru.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
