Support for the Development of Comprehensive and Responsive Social Protection Systems for the Resilience of Vulnerable Households

Support for the Development of Comprehensive and Responsive Social Protection Systems for the Resilience of Vulnerable Households

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Regional
Sectors	Law and Government
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.65 million

Project Description

This technical cooperation aims to support the resilience of the most vulnerable households through the development of social protection systems that are more responsive to crisis episodes and emergencies. In particular, the TC will seek to (i) strengthen beneficiary identification and selection systems through better information management; (ii) strengthen payment mechanisms and benefit delivery; (iii) strengthen governance mechanisms and inter-institutional coordination; (iv) compile and disseminate lessons learned.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
