Project Description

The goal of this technical cooperation is to facilitate access to high-quality, age-appropriate educational content, including COVID-19 prevention materials, to young migrant children and caregivers in border cities. The specific objectives are: a) to improve and facilitate access to quality educational content for young children who already benefit from humanitarian assistance; b) improve the offer of services of organizations that work actively in the response to the migratory crisis and the pandemic through the Sesame Garden Intervention. In addition, c) increase caregivers' access to appropriate tools to support their children's development and encourage positive behavior change on specific issues, including -for example- proper hygiene and care practices, through the interactive community to WhatsApp parents.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
