Support to promote foreign trade and foreign direct investment as engines of post-pandemic economic recovery

Project Description

The objective of this TC is to support the countries of the Andean region, specifically Colombia and Ecuador, to promote foreign trade and foreign direct investment (FDI) as sources of growth to reactivate the economy. This objective is intended to be achieved through the generation of knowledge and transfer of good practices that contribute to the structuring of projects and strategic investments to reduce the logistics costs and times of trade and investment and attract FDI to productive sectors, taking advantage of the recent trend of the relocation of global value chains.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
