Project Description

The objective of this technical cooperation (TC) is to support the region in the development of long term care policies and systems, while promoting gender equality, by (i) identifying common institutional, legal, financing and operational challenges in the region to provide for elderly care, (ii) supporting the development of policies, programs and models of interventions to address such needs, and (iii) actively promoting the collection and dissemination of lessons learned. This is aligned with the specific objective of the Aging Facility, namely, to increase public administrations' capacities to formulate, implement, monitor and evaluate public policies and programs for elders with care dependence.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
