Status	Proposed
Bank Risk Rating	U
Borrower	Regional
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.15 million
Project Cost (USD)	$ 0.15 million

Project Description

The objective of this TC is to deepen knowledge on applied AI solutions for social services among government officials and entrepreneurs in LAC to identify specific opportunities for improving the provision of social services at scale, while drawing lessons that could be replicated. The TC aims to farther and complement the work of RG-T3450 fAIr LAC, an initiative that is working to develop tools and knowledge products to support LAC governments in preparing for the ethical and responsible use of AI as part of their digital transformation agendas.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
