Project Description

The objective is to generate mechanisms and tools for smart, inclusive, and sustainable water and sanitation services. This TC will contribute to the development of the Facility's activities by financing activities related to the provision of intelligence and stimulating the coordination between the demand and supply of innovation, so operators and managers of these services can identify, test, implement and scale innovative solutions and products. The adaptation of innovative management models and technical solutions is expected to contribute to support countries' efforts to achieve the sectoral SDGs.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
