Project Description

The proposal seeks to build specific employment solutions to reach the migrant group with disabilities, such as: online training systems, orientation cards and specific job opportunities. Simultaneously, it will create unique and exclusive spaces for connection between companies and Venezuelan migrants with disabilities. Likewise, it will develop training and support tools so that migrants with disabilities can access the income-generating opportunities offered by the mediation platforms for physical and virtual services. This will be accompanied by the establishment of alliances that allow the exploration of benefit provision and protection schemes for these work trajectories, known as WorkerTech services.

Investment Description

- Inter-American Development Bank (IADB)

The countries' counterpart amount to USD 410,000.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
