Integrated Management of Water Resources in the Pantanal - Upper
Paraguay River Basin and in the Lempa River Basin

Quick Facts

Countries	Bolivia, Brazil, El Salvador, Honduras, Paraguay
Specific Location	Paraguay River; Lempa River
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Borrower	Regional
Sectors	Technical Cooperation, Water and Sanitation
Investment Type(s)	Advisory Services, Grant
Investment Amount (USD)	\$ 0.63 million
Project Cost (USD)	\$ 0.63 million

Project Description

The objective of this TC is to develop methodologies for the integrated management of transboundary inland water systems (surface and groundwater), in the Pantanal - Upper Paraguay River Basin and in the Lempa River Basin, supporting governments to develop information systems for decision-making and international coordination and planning mechanisms, in a context of mitigation and adaptation to climate change.

Investment Description

- Inter-American Development Bank (IADB)

Project contacts not available at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
